Register Now! Cohort begins September 19, 2008

Register at <http://psl.jhu.edu/>

Program Goals:

- Enhance the quality of leaders in emergency management through graduate-level education that develops thought and competency in areas such as scientific analysis, strategic planning, problem solving, project management, and community development.
- Cultivate recognition of emergency management as a viable profession built upon fundamental disciplines, a requisite body of knowledge, and unique and essential services to individuals and society.
- Foster and improve interjurisdictional and interagency cooperation and collaboration.

A cohort is now forming.....The Johns Hopkins University Emergency Management Leadership Program is an intense course of graduate study designed to meet the needs of professionals committed to and responsible for emergency management and readiness. To succeed in in this ever-challenging field, emergency managers must draw upon their knowledge and skills to: (1) establish and maintain meaningful values and create a collective focus on purpose, (2) manage planned change, (3) solve complex internal and external problems, (4) foster creativity and trust, (5) manage differences, (6) think creatively, (7) plan strategically, and (8) advocate on behalf of multiple agencies and organizations.
