

# Maryland Fire Equipment Expands PPE Center and Services

Maryland Fire Equipment Corporation's Personal Protective Equipment (PPE) Center has been in operation since 1983 and offers sales, inspection, cleaning, repair, alterations, and customization solutions for all of your Personal Protective Equipment.

We are proud to announce the 1600 square foot expansion of our existing PPE Center in Rockville, MD. This expansion will enhance our quality workmanship and dependable service and will allow for an even faster turnaround time.

Maryland Fire Equipment Corporation is a verified Independent Service Provider (ISP) by Intertek Testing Services. Our factory trained PPE technicians can repair or modify your gear to manufacturer specifications in accordance with NFPA 1851, 2008 Edition.

We understand that the health and safety of our fire fighters is a major concern for every department. Liability is also a concern and can be reduced with proper cleaning, repair, maintenance and record keeping of every element of PPE. In order to assist our customers with compliance to NFPA 1851 record keeping requirements, Maryland Fire Equipment has launched [www.marylandfireppe.com](http://www.marylandfireppe.com) so that all of our customers can maintain information tracking on their PPE elements.
